

THE COLD/FLU SEASON IS HERE!

...and flu vaccine supplies are running low. Here are some suggestions for prevention:

Wash hands after coughing, sneezing or blowing your nose and before handling food, dishes, glasses, napkins or silverware.

And here is how ZEP can help:

Antibacterial Hand Soaps

ZEP FS ANTIMICROBIAL

type: Quat-Base Hand Cleaner and Sanitizer **PROD. #0901**

BENEFITS: Economical, E-2-rated hand cleaner and sanitizer. Reduces cross-contamination (microbial) of surfaces and food products by workers hands. Non-iodine formulation contains conditioners for extra mildness. Non-irritating, non-staining, with no residual fragrance. Use in all food-handling facilities. USDA applicable.

ZEP E-2

type: Hand Cleaner and Sanitizer **PROD. #0920**

BENEFITS: Non-iodine hand cleaner and sanitizer. E-2 rating for use in federally inspected food-processing plants. Reduces cross-contamination (microbial) of surfaces and food products by workers hands. Biodegradable formula contains skin conditioners for extra mildness and PCMX, a broad-spectrum antibacterial agent. Phosphate-free. USDA applicable.

Hard Surface Cleaning & Disinfecting

ZEP ATTACK

type: A concentrated Neutral Cleaner/Disinfectant/Deodorizer **PROD. #0632**

BENEFITS: Zep Attack is a concentrated hospital-grade liquid cleaner, disinfectant, sanitizer, bactericide, virucide, fungicide, and mildewstat that kills HIV (AIDS virus) on previously-cleaned surfaces. Zep Attack contains a blend of non-ionic detergents and water-softening agents plus powerful quaternary ammonium germicides.

ZEP SPIRIT II

type: Non-Phenolic, Germicidal Cleaner and Deodorant (RTU) **PROD. #0679**

BENEFITS: Improved formula. Ready-to-use, hospital grade, non-phenolic, germicidal cleaner and deodorant. Quickly cuts through grease and heavy soil. Kills Tuberculosis, Canine Parvovirus, and HIV-1 on pre-cleaned, inanimate, nonporous surfaces. Conforms to CDC Bloodborne-Pathogens procedures for environmental surfaces. No dilution, mixing or measuring required. EPA registered.

ZEPYNAMIC-A

type: Phenolic Disinfectant and Deodorant **PROD. #0110**

BENEFITS: Inactivates HIV-1 (AIDS) virus and Herpes Simplex Types 1 and 2 viruses on pre-cleaned environmental surfaces or objects previously soiled with blood or bodily fluids. Kills TB, Salmonella, Paratyphoid B, Streptococcus, canine-related and other viruses. Kills Athlete's Foot fungus, Escherichia coli, and Staphylococcus aureus. Controls mold and mildew. Dries instantly leaving no oily film. USDA applicable. EPA registered.
